

BC8s WINTER NEWS LETTER- *Best wishes this holiday season-- Stay Safe!*

Greetings E31 owners and welcome to the winter 2020/2021 BC8s News Letter! Even though BC was on restricted gatherings and social distancing, we managed to squeeze into the year several WrenchFests, Cars & Coffee events and two driving events- one of which was our trip to Whistler! And if you attended the Whistler drive, you now know John T has a special musical talent. Playing the accordion- what fun!

Recently a couple cars in our group have changed hands and we have a few new owner/enthusiasts added to the BC8s group. We are presently working on a tentative schedule of events for 2021. Look for this information in early January. *If you have not responded to Tom's email about continuing your association with BC8s, please do so directly with Tom at: wuffer@telus.net*

BC8s on the move!

New to BC8s- Josh's E31

Henry's recent purchase

BC8s 2020WF

International information: The BMW Car Club of America – E31 Chapter is in talks with BMW Classic about a small production run of 850 power steering filters. They are also in discussions with Hella trying to get another production run of headlamp adjuster kits which were fitted to all Canadian and US model E31s. Both of these critical items have been no longer available for some time.

Check out the latest updates to the BC8s website and if you have not already done so, send a photo of your car to Tom to upload to the BC8s Registry: <https://www.wuffer.ca/>
